

GMP-Song

Title: "Keep It Confidential"

(From ECA Interest Group Validation Guide 3.0)

(Verse 1)

We've got secrets, kept under lock and key,
Product and process, only for us to see.
In a document called PPURS,
Where every step and risk is laid out first.

(Chorus)

Keep it confidential, keep it safe and sound,
With every single process, as we go around.
We'll find the right supplier, with care and review,
Then set the plan together, me and you.

(Verse 2)

We gather round, in a workshop or two,
Discussing details, making them true.
The final requirements, agreed side-by-side,
So every single step, we know and guide.

(Chorus)

Keep it confidential, keep it safe and sound,
With every single process, as we go around.
We'll find the right supplier, with care and review,
Then set the plan together, me and you.

(Bridge)

And if we share a little secret,
We've got that NDA,
So what's important stays protected,
Every step of the way.

(Chorus)

Keep it confidential, keep it safe and sound,
With every single process, as we go around.
We'll find the right supplier, with care and review,
Then set the plan together, me and you.

(Outro)

From PPURS to the URS,
We're setting it all up for the best success.
Keep it confidential, keep it safe and true,
Together on this journey, me and you.
